

## MEDICAL ADHESIVE COATED BREATHABLE URETHANE FILM

| PART | DESCRIPTION  | FEATURES  | APPLICATIONS  |
|------|--|---|---|
| 8028 | 1 mil clear urethane film coated one side with a medical acrylic pressure sensitive adhesive. Product unwinds with urethane secured to the release liner and adhesive exposed. | <ul style="list-style-type: none"><li>-Self-wound for easy converting</li><li>-Highly breathable</li><li>-Ideal for urethane film laminations</li><li>-Fluid barrier</li><li>-Very soft and conformable; skin-like feel</li><li>-Nonirritating, nonsensitizing adhesive</li></ul>   | <ul style="list-style-type: none"><li>-Breathable thin film wound dressings</li><li>-Urethane film laminations</li></ul>  |
| 8184 | 1 mil clear urethane film coated one side with a medical acrylic pressure sensitive adhesive.  | <ul style="list-style-type: none"><li>-Highly breathable</li><li>-Low coefficient of friction</li><li>-Excellent fluid barrier</li><li>-Very soft and conformable; skin-like feel</li><li>-Nonirritating, nonsensitizing adhesive</li></ul>   | <ul style="list-style-type: none"><li>- Breathable thin film wound dressings</li></ul>  |
| 8173 | 1 mil clear urethane film coated one side with a medical acrylic pressure sensitive adhesive. The urethane is supported by a polyethylene carrier.                             | <ul style="list-style-type: none"><li>-Polyethylene carrier for easier converting</li><li>-Highly breathable</li><li>-Excellent fluid barrier</li><li>-Very soft and conformable; skin-like feel</li><li>-Nonirritating, nonsensitizing adhesive</li></ul>  | <ul style="list-style-type: none"><li>- Breathable thin film wound dressings</li></ul>  |
| 8108 | 1 mil breathable, clear urethane film coated one side with a medical acrylic pressure sensitive adhesive.  | <ul style="list-style-type: none"><li>-Highly breathable</li><li>-Fluid barrier</li><li>-Very soft and conformable; skin-like feel</li><li>-Nonirritating, nonsensitizing adhesive</li></ul>  | <ul style="list-style-type: none"><li>- Breathable thin film wound dressings</li></ul>  |
| 8124 | 1 mil clear urethane film coated one side with a medical acrylic pressure sensitive adhesive. The urethane is supported by a paper carrier.                                    | <ul style="list-style-type: none"><li>-Paper carrier allows excellent ease of film use and converting</li><li>-Highly breathable</li><li>-Fluid barrier</li><li>-Very soft and conformable; skin-like feel</li><li>-Nonirritating, nonsensitizing adhesive</li></ul>  | <ul style="list-style-type: none"><li>- Breathable thin film wound dressings</li></ul>  |
| 8144 | 1 mil clear urethane film coated one side with a medical acrylic pressure sensitive adhesive. The urethane is supported by a 2 mil HDPE carrier.                               | <ul style="list-style-type: none"><li>-HDPE carrier allows excellent ease of film use and converting</li><li>-Good die-cutting ability</li><li>-Highly breathable</li><li>-Fluid barrier</li><li>-Very soft and conformable; skin-like feel</li><li>-Nonirritating, nonsensitizing adhesive</li></ul>                     | <ul style="list-style-type: none"><li>-Breathable thin film wound dressings</li><li>-Clear carrier can be used in products where good clarity is needed</li></ul>           |
| 8163 | 1 mil clear urethane film coated one side with a medical acrylic pressure sensitive adhesive. The urethane is supported by a polyester carrier.                                | <ul style="list-style-type: none"><li>-Polyester carrier provides a clear lamination for ease of film use and converting</li><li>-Good die-cutting ability</li><li>-Highly breathable</li><li>-Fluid barrier</li><li>-Very soft and conformable; skin-like feel</li><li>-Nonirritating, nonsensitizing adhesive</li></ul> | <ul style="list-style-type: none"><li>-Breathable thin film wound dressings</li><li>-Very clear carrier can be used in products where very good clarity is needed</li></ul> |

## MEDICAL ADHESIVE COATED BREATHABLE URETHANE FILM

|      |  |   |  |
|------|--|---|--|
| 8167 | 1 mil clear urethane film coated one side with a medical acrylic pressure sensitive adhesive. The urethane is supported by a 2 mil polyethylene carrier. | <ul style="list-style-type: none"><li>-Polyethylene carrier allows excellent ease of film use and converting</li><li>-Ideal for urethane film laminations</li><li>-Good breathability</li><li>-Excellent fluid barrier</li><li>-Very soft and conformable</li><li>-Nonirritating, nonsensitizing adhesive</li></ul> | <ul style="list-style-type: none"><li>-Breathable thin film wound dressings</li><li>-Urethane film laminations</li><li>-Clear carrier can be used in products where good clarity is needed</li></ul> |
| 8177 | 1 mil clear urethane film coated one side with a medical acrylic pressure sensitive adhesive.  | <ul style="list-style-type: none"><li>-Good breathability</li><li>-Excellent fluid barrier</li><li>-Very soft and conformable</li><li>-Nonirritating, nonsensitizing adhesive</li></ul>   | <ul style="list-style-type: none"><li>-Breathable thin film wound dressings</li></ul>  |
| 8186 | 1 mil clear urethane film coated one side with a medical acrylic pressure sensitive adhesive.  | <ul style="list-style-type: none"><li>-High tensile strength, yet breathable</li><li>-Excellent fluid barrier</li><li>-Very soft and conformable</li><li>-Nonirritating, nonsensitizing adhesive</li></ul>  | <ul style="list-style-type: none"><li>-Breathable film applications where high film strength is needed</li></ul>   |
| 8061 | Breathable urethane film laminated to open cell foam with medical acrylic pressure sensitive adhesive on the opposite side of the foam.                  | <ul style="list-style-type: none"><li>-Breathable laminate adheres to absorbent materials, especially hydrocolloids</li><li>-Provides cushioning with fluid barrier exterior</li><li>-Very soft and conformable</li><li>-Nonirritating, nonsensitizing adhesive</li></ul>   | <ul style="list-style-type: none"><li>-Wound dressings, where breathable, cushioned exterior is desired</li></ul>  |

---

**Urethane films are available in other thicknesses.**  
**Printed adhesive products also available.**  
**Adhesive properties can be custom formulated.**
